## ST. PETER'S CEMETERY

Consecrated 1873

This Cemetery was used by the congregation of St. Peter's from 1873. There are approximately 470 graves in the cemetery, most of which are marked by plain slate markers.

During the years the graveyard was in use there was an average of 7-10 burials annually however, there are some years with as few as one or two. The new part of the cemetery was used as early as the 1920's but this section continued as the primary burial ground until the late thirties.

Original church documents were consulted to compile the list of people buried here. Spellings are as written in the church record.
